blacklizard™ Xtreme™ HD Acoustics Listen.Like.No.Other

V. Final

Finally, after few weeks working with this acoustic and now,BETA testing phase is finished, blacklizard™ Xtreme™ HD Acoustics which have undergone a complete reconstruction is released.
This acoustics only affect the music that is listened through headphone via fastport and 3.5 mm jack.

- This release is for all A2 phones that has Clear Audio Experience and MegaBass
- The .CSV and .WBXML was based on original W705 R1AG026
- blacklizard™ Xtreme™ HD Acoustics was tested on W705 R1AG026, G705 R1AF035 and W995 R1AG026

Features:
+ Everythig in CSV have been pushed to the limit while the sound quality is still maintained without distortion at maximum volume.
+ Listen to the sound as it is hearing from a dedicated music player.
+ More effect.
+ To Achive more effect, turn on Stereo Widening.

I would like to thanks to these people:
- **Hiron**, for her great advice
- **lovedimpy**, the BEST BETA tester ever, without him, I wont be able to release this acoustics and he is a good brother :)
